What will be done today

Youssef Ahmed, Omar Tarek, Youssef Hassan, Youssef Ehab : Design our database schema

Current obstacles

We still confused about how will we represent the three types of user in ERD

Current Trello workspace

CS352: Sprint 1 – OtripleY, onlineStorePlatform

Daily scrum meeting template

Requirements

- 4- Develop a proxy security middleware for authorization and authentication. #14 Non-estimated
- 5- Develop a web service to let the user able to add a new store to the online market. The online store information should include the store location (onsite or online), store name, store type (sports, entertainment, clothes, technology, ..., etc) and any other relative information. The store will not be added until the online store administrator accepts it. #15 Non-estimated
- 6- Develop a web service to let the administrator able to add new products to the system. The products info should include product name, price range, category, ...,etc. Once the product is added it should be available to the store owner to add it. #16 Non-estimated

Sprint 1

- 1- Develop a web service to let the user able to register in the online market. Each user should be identified by username or email. Each user should provide a password which will be used later to login. #11 Non-estimated
- 2- Develop a web service to let the user able to login into the online market by providing username/email and password. #12 Non-estimated
- 3- Develop a web service to be used to list all current registered users. #13 Non-estimated

To Do

- Check the SDS document with the project description. #4 Non-estimated
- Check the Sprint document with the project description. #10 Non-estimated

Doing

- Meeting minutes for the sprint starting meeting. #5 Non-estimated
- Meeting minutes for the sprint standup meetings. #6 Non-estimated
- Meeting minutes for the spring retrospective meeting. #7 Non-estimated
- Proposed architecture. #1 Non-estimated
- Design database schema. #19 Non-estimated

Done

- Git repository. #9 Non-estimated
- Trello board. #8 Non-estimated
- Proposed class diagram. #2 Non-estimated
- sequence diagrams for each scenario. #3 Non-estimated
